**Subject:** HB4540

I urge the committee to REJECT HB4540. It is time to stand up for the people's right to know exactly what the oil, gas and dielectric companies are doing at all times. It is time for the legislators to stand up for the citizens of Michigan instead of stabbing us all in the back.

It is time for the legislators to do the right thing for the citizens and the environment by rejecting HB4540.

Micheal & Joanne Cromley  
Afton, Michigan
